The petals are layered, showing deep red and magenta hues with some lighter, almost white, highlights where the petals are thinner or where light reflects off their surfaces. The texture of the petals is visible, showing fine veins and a slightly waxy or velvety surface.

Where The City
Moves Next
North Bengaluru

Bengaluru is evolving and its next chapter is unfolding in the north. With direct airport access, metro expansion, and large-scale economic hubs, North Bengaluru is fast emerging as the city's most forward-looking corridor. But beyond momentum, North Bengaluru offers something rarer - Space, Clarity, Possibility.

A neighbourhood where ambition meets balance. Where progress doesn't overwhelm. Where life can unfold with intention.

Composed Yet *Connected*

In North Bengaluru, connectivity doesn't come at the cost of calm. Major highways such as NH4, the Peripheral Ring Road, and upcoming metro links, connect you seamlessly to the city centre, the airport, and key commercial districts.

And yet, just moments away, neighbourhood streets slow the pace - scenic, spacious, and thoughtfully planned. Here, movement is seamless. And living feels unhurried.
